

## Daily Watch Deal

[Daily Watch Deals](#) is a web-based discount cellar for Watches. It is stocks which we manage to buy in bulk, frequently they are suppliers overruns, ends of lines, general excess, or liquidated stock at record low price tags, and we are here to pass all these discounts to buyers everyday.

Our team are located in Manchester UK where we have been trading for the last 37 years, however this doesn't limit our shipping range, so if you live farther out don't worry.

We have Europe's widest web-based shop when it comes to jewellery and watches, in which we stock an extensive range of gold, silver, diamond, custom and crystal jewelry.

We have a range of elegant luxury and designer label watches including Armani, Guess, Fossil, Michael Kors, Omega and Rolex watches to name a few. We have a large selection of casual and sport watches including the latest trends of candy watches, slap on watches and g shock watches.
