

## Jump, Jump in Wrestle Jump

In this game you will can also choose if you want to play alone or you want to play with your friend. The first player that will score 5 points will be able to win the match. Although this game is very easy to learn, but this is also very hard to master. You will be able to match the timing of your opponent to be able to smash his head on to the wall, ceiling or any other hard objects.

Just make sure that you will be able to avoid your head to get smashed first, because if you did so, you will be able to lose the points and will be given to your opponents. That is why you really need to hit your opponent's head first for you to be able to get the point. Once one of you will hit your head, you will be directly to the next stage of the game. Always remember that the person who really gets the first 5 points in each level will win the game. So you really need to jump hard to be able to defeat your opponent and will be able to smash his head on to the wall, ceiling and other hard objects.

As I have mentioned earlier, this game is really a very easy game, but a really hard to master. You only need to press the up arrow key for the player one and the letter W for the player 2. This can only be used to make the characters jump until one of them will hit their head on the floor, or other area. To be able to master this you really need to make a plant and be able to wait for the right timing to make your character jump. Make sure that you will really hit your opponent's head whenever you decide to jump.

Always make sure that you will also jump once your opponent will jump to avoid unbalance the both of you. Always bear in mind that to be able to win the game, you really need to hit the head of your opponent first before your head to be able to win the stage. Always make sure that you will start pressing your key to be able to have some edge on your opponent. You really need to make sure that you will keep an eye to your character to be able to make your character jump again and again so that you will really going to win the game. Once one of your already won the game the game will be back on top and will restart again.

That is why you should really need to work hard on your jumping skills to be able to win this game. The only thing that you will do in this game is just to jump and jump until one of you smashed your head and one will earn the points. That is why if you are playing with your friend you should make sure that you are having fun while playing this game because it is really very easy to play. You just need to press certain keys to be make your character jump until it will smash the head of its opponent to the floor, ceiling and other hard objects. Although it is really creepy watching the two mask wrestler jumping, you will still enjoy watching both of them trying to jump just to win the game. You just need to make a really great plan to be able to defeat your opponent, and to be able to win the game by visiting [myspecialgames.net](http://myspecialgames.net).

## About the Author

The most important thing to consider in playing this game is you really need to jump harder and to make a very good timing to be able to win the game. It is really very important that you will really need to work hard on jumping so that you can defeat your opponent in just one jump. Once you have already mastered your jumping skills you will be able to defeat easily all your opponents.
