

## Mortgage Reveals How exactly to Take Back Control of Your Finances in This Market

The economy has been cruel to your financial lifestyle. Similar to hard working families your retirement nest egg is slashed and you probably lost about 30% of the equity in your home. Your financial savings have already been stolen from you because of the greed on wall street.

We're all searching around for the best financial advice in this market. And in times of crisis it is definitely an excellent strategy to return to the basics.

What is the best financial method in this market?

Mortgage Reduction techniques when applied the proper way is a secret financial weapon for almost any homeowner in this market.

When we have a look at the stock market, it's still bouncing around and reeling from the aftershock. Except for continuing to buy your 401 k it does not make sense to buy the market. Are you ready to take a second step?

So the next best financial strategy is mortgage reduction.

And at this time you're probably wondering why mortgage reduction. And as you hear this term maybe you are thinking the simplest way to cut back your mortgage or pay it off might be to pay for extra, prepay your mortgage or possibly utilize the bi-weekly system.

And you will not be wrong. You see everyone we know from our mortgage brokers. But there's a better way to make money.

And the very best part if there is not to improve your lifestyle or spend a cent more.

Here is how this simple technique works

This is called the mortgage.

And the trick tool behind a mortgage reduction system is a Home Equity Type of Credit (HELOC).

Now this can be a fun part.

The HELOC could be turned into a checking account. You can pay your bills and make online electronic payments.

With the HELOC as a checking account you automatically use the power of interest and leverage and you can convert your 5.5% rate to a 2.5% rate. And by continuously making use of your HELOC every month you can slash years of your mortgage and achieve financial freedom.
