

Nadi Dosha Remedies and Solution – Can It be Ignored

What is Nadi - Nadi is the last koot and the most important Koota in Horoscope matching or Kundli milan. Nadi means pulse. The pulse is indicative of heart beat or nervous energy. As per Ayurveda Sastra Nadi indicates the three humours Vaatha Nadi, Pitha Nadi and Sleshma Nadi.

Vaatha Nadi reveals mind or gas (causing gastric problems) Pitha Nadi indicates bile (excessive secretion of bile) Sleshma Nadi indicates phlegm (cold and phlegm formation in the chest).

The three Nadis are classified as Aadi Nadi (beginning) Madyama Nadi (Middle) and Anthya Nadi (ending or last part). They are also named as Dhakshina Nadi, Madyama Nadi and Uthara Nadi. The 27 Nakshatras are divided into 3 Nadis.

HOW IS NADI DOSHA FORMED:

If the boy and the girl have same Nadi they form the Nadi dosha. Nadi dosha is never good for marital happiness. The birth stars of girl and boy must not be in the same Nadi. During horoscope matching If the stars of girl and boy are in different nadi matching can be done. If they are in the same Nadi, matching should be completely avoided. Especially if there is Nadi Paad Vedha, marriage should be avoided as other wise it will cause separation, insanity or even death.

NADI DOSHA REMEDIES:

The only appropriate remedy for Nadi dosha is to check for Nadi Paad Vedha. There are few remedies which are given like doing some puja etc. My experience and knowledge tells me that Nadi dosha Puja is no remedy for Nadi dosha. You have to understand that puja is only recommended when Nadi dosha does not get canceled. The purpose of any Puja is to seek blessings of the Almighty God. It does not cancel [nadi dosha Remedies](#) in any way. So the most effective remedy for Nadi Dosha is to go to the roots of how Nadi dosha is formed and check at the base level if Nadi dosha gets canceled. If there is no Nadi Paad Vedha, then marriage can be considered as it indicates that it is not a complete Nadi dosha. That means that Nadi dosha malefic effects will not be coming in the marriage. This is the most effective remedy for Nadi dosha. Many astrologers and pundits avoid checking Paad Vedha as they do not know how to check and also it is very time-consuming.

IS HAVING DIFFERENT BLOOD GROUP REMEDY FOR NADI DOSHA?

Some people get confused and relate Nadi to Blood Groups as they do not understand Nadi dosha and how it is formed. They feel that if there is different blood groups then the marriage can be done even if Nadi dosha is there. This is also not correct, even if there are different blood groups of the boy and girl, if there is Nadi dosha in the horoscope matching, marriage should only take place if there is no Nadi Paad Vedha. Even if the boy and the girl are having different blood groups, if there is Nadi Paad Vedha, marriage is completely restricted.

As Nadis are related to health, happiness, and longevity of the couple, importance should be given to the agreement of this Koota. Nadi Dosha not only ruins the happiness and prosperity but even cause mental disorder. As Nadi is very important it has a maximum of 8 score in Horoscope matching.

Nadi Koot is applicable for very couple who intends to have a blissful and happy marriage. Hence Nadi Koota agreement should be obtained before matching.
