

Anti Wrinkle Treatment in Glen Iris

ABOUT [ANTI WRINKLE INJECTIONS](#)

Frown lines, crows feet, worry lines are the most popular areas of concern. ..I'm not cross or angry but I'm tired of people telling me I am.. These lines respond extremely well to Botulinum Toxin Type A. This substance relaxes the targeted muscles that cause wrinkles to develop. It prevents lines from deepening and new lines from developing.

As well as reducing wrinkles, these wrinkle injections take away the appearance of tiredness and create a new youthful and refreshed look.

Other areas specialist:

- eye brow lifting
- softening the chin lines
- gummy smile
- uplifting the smile
- neck and jaw redefining and reshaping
- Plus Hyperhidrosis for excessive under arm sweating
- nose reshaping

This procedure takes approximately 20 minutes a lunch time procedure. You can return to work and nobody needs to know.

Anti wrinkle injections are very effective and can be used in conjunction with dermal fillers.

Come in and meet me for a no obligation free consultation. At this stage we would discuss your needs, concerns and the best suitable products.
